

View transcripts or captions - YouTube

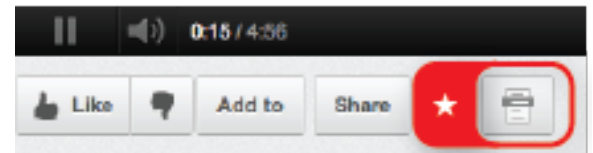

Find videos with captions

The search is not foolproof, but try typing your search term and the phrase “closed captions” in the search box. For videos with closed captions, there will be a small “CC” icon near the bottom left of the video description within the search results

View a transcript

If the video has a transcript, you will see an Interactive Transcript button below the black “play” line. Click the button and the transcript will appear in full below the video area.

View closed captions

Look for the “CC” button on the lower right of the player. Click it to activate the closed captions.
